

Dear ...,

Thank you for your interest in our services and welcome to De NatuurApotheek and its cooperating companies. I hope that we can help you use effective phytotherapy, mycotherapy and orthomolecular therapies, and I would like to give you some insight into the ins and outs of our companies, four in total.

1. DE NATUURAPOTHEEK

De NatuurApotheek is the core of 4 companies and delivers mainly to patients, but also to doctors and therapists. De NatuurApotheek makes and delivers its own customized preparations of all possible medicinal raw herbs (Chinese and western), Chinese granules, western dry extracts, Chinese hydrophilic concentrates, western liquid extracts, western tinctures, all medicinal mushrooms, essential oils, many types of massage oils, and orthomolecular raw materials (vitamins, minerals, proteins, amino acids). As a service item, De NatuurApotheek supplies and recommends many possible food supplements available in the Netherlands, Germany and Belgium.

For the secure sending of your prescriptions, a one-off registration is required at recipes.natuurapotheek.com.

2. EUROHERBSPHARMACY

EuroherbsPharmacy is our webshop for pharmacies, doctors and therapists and delivers mainly ready-to-use western and Chinese herbal formulas, orthomolecular remedies and acupuncture supplies. You will find Chinese herbal formulas of among others Maciocia (the world-famous product lines Three Treasures, Women's Treasure and Little Treasures), Golden Flower Herbs (together decocted Chinese herbal formulas for humans and animals from Kaiser Pharmaceuticals, the world's best quality granules), Kaiser Pharmaceuticals' own formulas, Seven Forests, Red Plumblossom (one of the house brands of De NatuurApotheek), Springwind, KAN Herbs (Ted Kaptchuk's formulas for humans and animals), and Jing Tang for veterinary use. You will find needles and other acupuncture supplies from brands such as Seirin, Marco Polo, DongBang, Shenzhou, Orca and Tian Xie. Renowned western phytotherapy preparations are also available from the webshop, including Biosana and Natuurlijk & Traditioneel (both house brands of De NatuurApotheek), as well as medicinal organic mushroom powders from MRL (Mycology Research Laboratories) consisting of the complete fruiting body of the mushroom with the mycelium (the root system). In the webshop, you will also find a lot of additional documentation in the categories of the various brands, as well as the complete range of books of De NatuurApotheek.

It is therefore worth creating an account! You can register for the web shop at www.euroherbs.com.

3. DE HAHNEMANN APOTHEEK

The Hahnemann Apotheek is the pharmacy for all homeopathic prescriptions and preparations. See the website www.hahnemann.nl. Here you will find a lot of information on homeopathy and everything related to it.

Consumer websites

De NatuurApotheek and De Hahnemann Apotheek also offer consumers the opportunity to order high-quality food supplements and organic superfoods online via our own consumer webshops webshop.hahnemann.nl and www.superfood4me.nl.

4. SKEL SUPPLEMENTS

SKEL Supplements is the production company of food supplements for humans and animals for De NatuurApotheek.

SKEL Supplements is the production company of nutritional supplements for humans and animals for Nature Pharmacy. SKEL Supplements takes care of the larger productions of mixed powders, tablets and capsules, including the house brands of De NatuurApotheek, the entire Maciocia range for Europe and (animal) food supplements for other companies. SKEL Supplements also prepares natural cosmetics such as gels, creams and ointments in bulk or filled in tubes or jars.

Our product range consists of more than 100,000 different products for De NatuurApotheek alone. If you have specific questions or wishes, do not hesitate to call or email us. We want to prepare the best quality therapies with the best raw materials, so that your patients need the shortest possible treatment time, and so that you yourself learn the effects of the various combinations of preparations. Please bear in mind that if you use poor quality raw materials or are constantly supplied with different quality end products, you too as a doctor or therapist can be continuously misled... Pharmaceutical quality has been our trademark since 1982!

All doctors and therapists (and also students) receive a 35 % discount on the *purchase price* when purchasing from De NatuurApotheek and EuroherbsPharmacy. Furthermore, you will find an overview of price indications on [the website of De NatuurApotheek](#). These are only indications, because in the end the price is determined by the composition, the number of herbs and the method of preparation.

STICHTING DONG XI

I would like to draw your attention to the Dong XI Foundation, which we provide with naturopathic information exclusively for doctors and therapists. We encourage you to register on this website: www.dongxioostwest.nl. A registration is usually evaluated within 1-3 working days. You will find on this website a lot of free information about Chinese and Western phytotherapy, about mycotherapy and about the many integral possibilities to prevent and treat viral infections. With regard to western phytotherapy, you will find the guidebook of Nico Bos, the founder of the Biosana range, and the guidebook of H.J. van der Schaaf, the founder of the

Zonnegoud range. This foundation also maintains the website about medicinal mushrooms:
www.mycotherapie.nl.

So much for this introduction. If there are any questions, please let us know.

Kind regards, and good luck with your practice.

Drs. Edwin G. Lipperts, pharmacist/phytotherapist
